**HANDBOOK AND REPORT
1977-1978**

FOREWORD

It used to be that a young man's time was divided between work and leisure and for the majority this is still so, and our Association has for many years effectively concerned itself with both these aspects, in Clubs, in activities, and in our Industrial Training programmes.

For many young people now leaving school this division no longer exists as many face long periods without work. As a Movement we must be involved in this situation, not offering pale alternatives to real employment but rather seeking some way of helping in a problem where the only real solution is to find work.

We have so many people helping in Clubs, on Courses or in Committees who have coped effectively with many problems and for that I thank them, and in doing so, ask them to look at any way in which some solution to the present problems may be found and help given where it is so much needed.

BEAUFORT

7th July, 1978.

Our Secretary with his wife and son after the Investiture at the Palace

GLOUCESTERSHIRE ASSOCIATION OF BOYS' CLUBS

Affiliated to the National Association of Boys' Clubs

HONORARY OFFICERS

1977-1978

President:

HIS GRACE THE DUKE OF BEAUFORT, K.G., P.C., G.C.V.O.

J. Broadman, Esq.

Hon. Legal Adviser: E. D. Watterson, Esq.

Hon. Auditors: Messrs. T. G. Cooke, Tortonese & Price.

GLOUCESTERSHIRE ASSOCIATION OF BOYS' CLUBS CHAIRMAN'S REPORT

In presenting our Report to you this year I am following a very similar form to that used some years ago when we particularly wished to emphasise some aspects of our work. I think that in this way all who have helped us will see more easily the uses to which their donations have been put and the areas in which major progress has been made.

With inflation running at a high rate during the year it might be thought that even maintaining a steady position was an achievement; we have done more than that but not without a great deal of help, and it is proper at the outset that I acknowledge that very valuable help from our subscribers and the Local Authority which provides financial stability, and this year in particular, the very great help from Trusts listed in our accounts, and from The Queen's Silver Jubilee Trust and the R.Y.A. Seamanship Foundation, all of which special help has been devoted to specific purposes of which details are shown elsewhere in the Report.

It is important that acknowledgement should be made to the very many men and women in Clubs, on Committees, or helping with activities, for it is on them falls the greater part of a work of whose value no one today can be in doubt. Once again new groups have joined us and some older ones have fallen by the wayside though not always by their own wish. Vandalism against all types of property has been a disturbing feature in many areas, and the fact that most of it is carried out by young people still at school and often directed against their own contemporaries should give us cause for concern. We must applaud the spirit of those in places of leadership or on relevant committees who despite repeated setbacks not only still carry on but win through in the end.

If our aim as stated in our 'Principles and Aims' is to help young people improve the standard and quality of life then we have plenty of work ahead, for no one can deny the need today for raising standards, in leadership, in membership, in all walks of life, for fair dealing and for firm resistance to those who look to violence as a way of gaining their ends. Make no mistake about it more leaders are needed, not only in our work, but in every walk of life, and leadership and insistence on high standards of personal behaviour are as important in the canteen, as they are on the playing field and in day-to-day contacts, as they are in control of a Club or a Management Committee.

We have strongly opposed for many years the growth of permissiveness without responsibility, and this clear stand has been good for our Association as it helps to persuade more people that we are not just social providers but have an interest and a real concern for young men whether at work or in leisure time. The fact that we do not function just in the necessarily limited hours of Clubs but are available to help at all times has we believe added significantly to our effectiveness.

The number of affiliated groups has again increased during the year. Our Industrial Training has grown by almost 40% and here

alone over 500 young men now undergo planned training each year—and further increases are forecast for 1978/79. Activities for members have not only increased but have been improved, though the Arts are still somewhat neglected. Our Adventure & Training Centre is full to capacity and undergoing a £3,000 facelift. Our Enterprise project has attracted grants which have kept it in running order and enabled it to be much used.

Our new Sailing Section, so proud of its new craft, has just qualified the first nine skippers on an initial course, and this activity will contribute much more to our future programmes. The craft will be moving off to North Wales for instruction for beginners during September this year.

Our Sports Committee have run a very full programme — some of it open to other groups — and have also almost reached their target with the 101 Club, the money from which will be used to improve the standard of provision for our activities. Through the kindness of His Grace our President we were able to arrange a very attractive recital at Badminton which not only raised money for us directly but enabled us on behalf of the Association and its member-clubs to make a substantial donation to the Queen's Silver Jubilee Appeal.

We have listed our programme of activities separately in the hope that it may form the basis of a diary and similarly we have included with this Report the programme for our Presentation Night which is becoming very impressive. Nevertheless it is not possible to list all activities though we ought to mention the very interesting match our County Soccer Team played against Jockeys and Trainers; the fact that at one time the Jockeys had 12 men on the field didn't seem to influence things much!

No particular mention has been made of the day-to-day services of the Association in so many ways — helping other bodies, finding leaders, finding committees, finding money — it may not be realised because it does not figure in our accounts that we have given direct help to clubs resulting in some £6,000 being raised towards capital projects undertaken this year alone. There are many parts of our work which really need involvement to appreciate; that we do receive acclaim is perhaps so well recorded this year by Her Majesty's Award of the M.B.E. to our Organising Secretary, who after forty years involvement in Boys' Clubs, would be the first to acknowledge that our achievement over the years has been the work of many.

We all congratulate Jim on this award which is so deserved after his many years of dedicated service to the Movement.

To all who read this report I would say: "Don't let the vandals, the football hooligans, the muggers and others like them put you off" — there is room and opportunity for you to make your effective contribution whether in cash or kind to ensure that together we shall beat those who will not face the future with faith and ideals, and we shall make our modest contribution help those on whom the responsibility for standards in society, in the home, and in our country fall.

It would be wrong to conclude this very brief summary without recording my appreciation of the great measure of help given by our Executive, Industrial and Sports Committees, by the County Council,

and our own National Association, and of course to the staff of the Association to whom we owe a particularly special debt of gratitude for continuing to provide us with a truly dedicated service.
June 1978

DENNIS FREDJOHN,
Chairman.

FINANCE

The Accounts this year are in a new form which seeks to give fuller details of the various parts of our work. There is on the face of it a sizeable balance on the year's work and whilst this is, of course, satisfactory it must be appreciated a number of grants are included for which at the 31st March the expenditure had not been incurred. The grant of £1300 for boats has now gone directly to their purchase whilst the major work at Kerne Bridge not yet completed will take up other substantial amounts and more, of course, than has been secured by grant.

Nevertheless in a time of inflation we have achieved a substantial measure of development and balanced our books. We cannot in the coming year rely on large Trust funds being available and we have some concern that support from individual subscribers has fallen somewhat. Real efforts must be made in the coming year to attract more of that individual support on which we, as a voluntary movement, must depend.

On behalf of our Committee I would express our thanks to:- The Gloucestershire County Council, The National Association of Boy's Clubs, The Trustees of Smiths Charity, The R.Y.A. Seamanship Foundation, The Queen's Silver Jubilee Appeal (Gloucestershire), The Godfrey Mitchell Trust and our Subscribers and all who have helped us during the year.

Paul Roberts
Hon Treasurer.

Our Hosts at the Jubilee Piano Recital with Terrence Judd at Badminton

THE QUEEN'S JUBILEE TRUST
THE NATIONAL ASSOCIATION OF BOYS' CLUBS
and
THE GODFREY MITCHELL CHARITABLE TRUST
Join in a
£3,000 FACELIFT FOR KERNE BRIDGE

For the first time in ten years the Associations' Adventure and Training Centre at Kerne Bridge was closed during January, February and March. This was needed so that structural repairs both to the Coach and Station building could be undertaken. New floors have been laid, better toilet facilities and a shower installed together with substantial reconditioning of the coach inside and out, levelling and re-slabbng the platform and, with the help of the County Council a useful tree and shrub planting to form a screen from the road has been achieved.

Those who are railway enthusiasts will be interested to know that the coach is the only one of its type left in Britain — only two were made — so we have a collectors' item.

With many more bookings than we can cope with we shall be insisting on a good standard of use — we owe it to the Queen's Jubilee Trust — who contributed the major part of the money and to the Godfrey Mitchell Trust and our National Association who have also made substantial grants available, just as we owe it to the young people who use the Centre.

Bookings are as widespread as ever with :—

CLUBS from Gloucestershire, North London, Birmingham, Windsor, Bristol, Sutton Coldfield, Rugby, Porthcawl, Caversham, Hemel Hempstead, Dorset, Ealing, London Federation, Bristol B.B. and Oxford.

SCHOOLS and

CHILDREN'S HOMES from Sindlesham, Bristol, Painswick, Avon Education Department, Bridge Project, an Assessment Centre, Salesian School, Hampshire, and Hampstead.

SPECIAL WEEKS Organised by Avon National Boys' Club members, for children in need, two special weeks during August.

Kerne Bridge now the personal Adventure & Training Centre for many groups.

SAILING — A NEW VENTURE

The Royal Yacht Association through its Seamanship Foundation has co-operated very generously by providing the money to purchase two G.P. 14's which were acquired in May and which with the co-operation of the Local Authority are now based at the South Cerney Centre.

At a suitable ceremony the boats were named 'LORD ROBERTSON' and 'MARTIN CADBURY' after two past Chairmen who did much for the Association. The ceremony coincided with the first day of a 'skippers' training course and it was particularly pleasing that Lady Robertson was able to be present.

SKIPPERS CLUB. Initially we are concentrating on getting together a group of skippers who when qualified will we hope be largely responsible for the development of sailing within the Association. The first series of Courses has been held and nine 'skippers' will now, under a R.Y.A. Instructor be able to operate at South Cerney.

FURTHER AFIELD. This autumn the boats will move to North Wales to be used on some of our Courses there, and as crews increase in number and proficiency we hope to couple up with 'Enterprise' to make weekend sailing in Plymouth Sound or one of the estuaries in North Wales a real and exciting possibility.

Anyone wishing to join the 'SKIPPERS CLUB' should get in touch with the Association.

CANOES. Our Canadian Canoes will shortly be moving to a permanent base at South Cerney and will be available to Club Groups under supervision. It is expected that full use will be made of these craft for holiday expeditions by Groups from the Cotswold villages during August.

Naming the 'Lord Robertson' and the 'Martin Cadbury' at South Cerney

ENTERPRISE

Our 'Enterprise Project' is still an effective force in development: but particularly in the rural areas where the problems of isolation are increasing some County-wide back-up service must be found if full potential is to be realised and proper service provided. We can prove the need in many areas but at the present time neither we nor local people have the means to meet it properly.

The other uses for Enterprise expand whether it is a mobile H.Q. for events, an adventure unit in its own right or a focal point at shows. More can be done in this area and the coming year should see us more in evidence at events of note — looking wider afield to back-up the Skippers Club and once again in use on the holiday weeks for children in need.

Like all else money and manpower are the keys to expansion here and we are particularly hopeful that to increase numbers we may find it possible to replace our existing seven-seater land rover for a more economical twelve-seater diesel. If this can be achieved the new laws enabling charges to be made could save us money and enable us to widen our activity.

There is no doubt that many of the problems and deprivation in rural areas are the direct result of lack of transport. Enterprise can and will continue to point the way but the real solution will need greater resources than ours and we believe that joint action by a voluntary Organisation such as ours with the local authority — avoiding many of the complications that now exist — could make at least a significant contribution to solving some of the problems.

INDUSTRIAL TRAINING REACHES 'A CENTURY'

In January 1978 there was a special celebration to mark the occasion of the 100th Adjustment to Industry Course when, at a formal dinner party at Cowley Manor at which Lord Vestey presided, Students on the 100th Course then in progress were hosts to the Speakers, the Industrial Training Committee, members of the Executive and invited guests. The Chairman of our Industrial Committee, Mr. P. L. McIlwraith, in thanking the many people who helped with these Courses and the young men for the very

competent way in which they carried out their duties as hosts, was able to draw attention to the whole series of progressive Courses for Industry now run by the Association which were unique in this Country.

The 3500th student to attend these particular Courses was presented with a memento of the occasion, and all present were given one of the new special badges which in future each student attending will receive, which will not only enable him to recognise other students on future Courses, but will also indicate to others that he has undertaken planned training.

Unknown to the Organising Secretary arrangements had been made to record his involvement with these and subsequent Courses over the past 20 years. Many friends from Committees and Industry had contributed to a Presentation which included an inscribed cut-glass rose-bowl, a scroll lettered to mark the occasion and the many friends who had been associated with it, and a very handsome cheque. Members of Apprentice Groups using the Courses presented him with some very practical and useful examples of their skills. The Secretary in expressing his thanks said that this was an evening he would always remember, adding as it did to a year which for him had started so auspiciously. He would value and make good use of the many gifts but most of all he would remember the kindness and help of so many people who really made this side of our work possible.

ACCOUNTANTS' REPORT

In our opinion the Accounts set out on pages 9 to 11, prepared under the historic cost convention, give a true and fair view of the state of the Club affairs at 31st March, 1978, and of the Income and Expenditure Account for the year ended on that date. Also, in our opinion, the statement of source and application of funds on page 11 is fairly presented.

Think Engineering Think Dowty

The Dowty Group, comprising over 20 engineering companies with worldwide involvement in the **aviation, mining and industrial hydraulics and electronic industries**, offers boys or girls the following apprenticeships.

Engineering Apprenticeships

for young people who want to become skilled engineers.

Qualifications: academic qualifications are not essential but we prefer applicants to be sitting at least some C.S.E. or G.C.E. examinations. These examinations help to determine the subsequent technical education required.

Technical Apprentice

The purpose of the Technical Apprenticeship is to produce the qualified Technician engineers required mainly in Technical, Production and Commercial Departments of the Dowty Group. These include the Drawing Office, Development Department, Stress Department, Work Study, Production Control, Methods, Quality Control Department.

Qualifications: to qualify for a Technical Apprenticeship candidates must have achieved G.C.E. 'O' level at a recognised pass grade (or C.S.E. grade II in Maths, Physics, or Science, English plus one other at the time of leaving school).

Student Engineer

for young people who wish to become professional engineers.

Qualifications: 2 'A' levels in Maths, Physics, or Engineering Science, or Ordinary National Diploma in Engineering or Technology.

Commercial & Student Commercial Apprenticeships

Training opportunities exist for those wishing to enter commercial departments such as: Accounting, Sales, Buying, Contracts, Computer and Organisation & Methods.

Qualifications: Commercial: Four 'O' levels or C.S.E. grade I, inc. Maths & English preferred.

Qualifications: Student Commercial: Two 'A' levels (Maths, English or Economics) or O.N.D. Business Studies.

Early application advised. Selection commences in January each year.

For further details write to:
Training Manager, Dowty Group Services Limited,
Arle Court, Cheltenham, Glos.

DOWTY

ENERGY

IS OUR BUSINESS

MIDLANDS ELECTRICITY seeks each year to recruit enthusiastic young people into its training schemes, who will become tomorrow's "MEN AND WOMEN OF ENERGY".

With a combination of comprehensive practical training; further education in a University, Polytechnic or technical College; and skilled instruction in our Residential Staff Training College, or Technical Training School, we produce our future:

Managers & Executives
Professional Electrical Engineers
Electrical Technician Engineers
Craftsmen: Electricians, Electrical Fitters,
Cable Jointers, etc.
Administrative and Clerical Staffs
Shop Supervisors and Sales Staff

Training normally commences in August/September, but application should be made as early as January/February in each year.

Write for further information about entry qualifications, etc., and an application form; stating your choice of career to:

Area Manager,
Midlands Electricity Board,
Southern Area,
Blackpole Road
Worcester,
WR4 9TB.

Train for a Great Service

The Gloucestershire Constabulary can offer you the chance of a job of value to the community. Cadet training is designed to develop the all-round ability essential to a police officer. Primarily you will combine educational studies with physical and adventure training and instruction in elementary police work. Later, you will be attached to a police station where you will learn practical police work under the guidance of experienced officers, in a variety of differing departments, including Traffic Operations Room and Criminal Investigation Department.

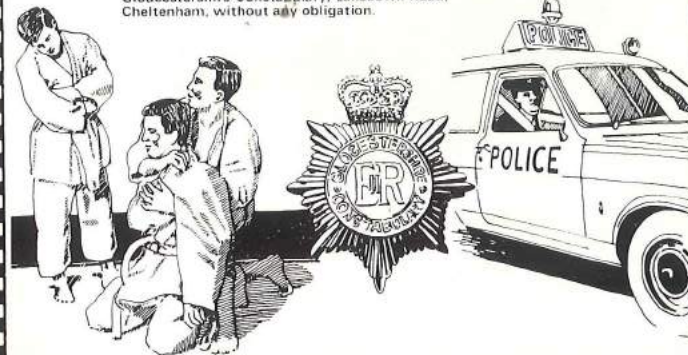

The sporting facilities are very comprehensive, giving you the chance to play football, cricket, rugby or almost any other sport you can name. Cadets are obliged to enter the Duke of Edinburgh Award Scheme and in addition camps are attended where rock-climbing, mountain rescue and outdoor sports are developed.

Following completion of the cadetship and a further interview successful cadets are accepted as constables at 18½. Promotion depends entirely on your own ability. If you show high potential in the qualifying examination for Sergeant - your first promotion step from Constable - you would be in line for selection for the 12 month special Course at the Police College at Bramshill in Hampshire. The College is the gateway to rapid promotion for the future leaders of the Police Service.

For police cadets, 40 hours duty a week is the norm with 10 weeks leave a year during the first years of training, but leave is reduced when you are finally attached to a police station.

To qualify for a cadetship, you must pass the entrance examination or, to be exempt, you must hold 4 G.C.E. 'O' levels including Maths and English. Applicants should expect to reach the height of 172 cm (men) and 162 cm (women) when aged 18½.

For further information, write to the Chief Constable, Gloucestershire Constabulary, Lansdown Road, Cheltenham, without any obligation.

ENGINEERING APPRENTICESHIPS

TRAIN WITH BRYCE -
AND YOU'RE TRAINED
FOR THE TOP

Today's BRYCE apprentices are tomorrow's leading Engineers who will be in demand throughout the world.

We specialise in the design, development, manufacture and application of Fuel Injection Equipment for the new generation of high performance Industrial, Marine and Locomotive Diesel Engines throughout the World.

AS AN APPRENTICE

at the age of 16/17 to complete a four year Engineering Apprenticeship leading to City & Guilds or HNC/HND qualification (or TEC equivalent).

AS A STUDENT TRAINEE

at the age of 18/19 with two A-levels to pursue a Degree Sandwich course in engineering.

AS A GRADUATE TRAINEE

at the age of 21 with a Degree and complete an 18 month "tailor-made" training programme.
